

MCB 5671-02 Characterization of Microbial Communities by 16S rRNA Gene Sequencing

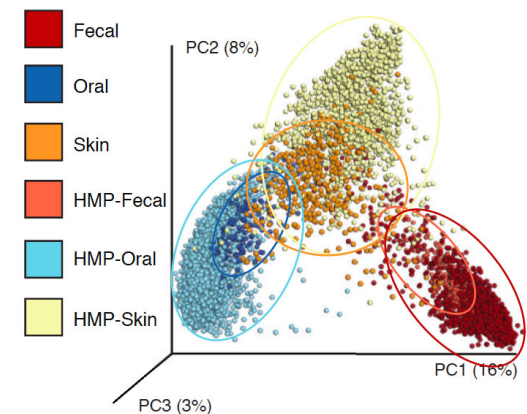

Dates: May 10-11, May 14-16, 2018

Times: 9:00 AM to 5:00 PM

Instructors: Joerg Graf, Jacquelynn (Jacqui) Benjamino and Andrea Suria

2 credits

- Learn how to sequence the 16S rRNA genes of a microbial community, prepare libraries to run on the MiSeq, and analyze data using a QIIME pipeline
- **Open to all graduate and qualified undergraduate students**
